

**ADVANCED COOLING TECHNOLOGIES**  
The Thermal Management Experts | [www.1-act.com](http://www.1-act.com)

**ACT** - Custom thermal management technologies and solutions. Heat pipe, heat spreader and wedgelock products for terrestrial, spacecraft, and high-temperature applications. [www.1-act.com](http://www.1-act.com)

**AtlantecRF** - Loop Test Translators: available in rack-mount, bench-top, outdoor/weatherproof and Satellite Simulators: multiple frequency bands, Indoor and Outdoor versions. [www.atlantecrf.com](http://www.atlantecrf.com)

**Corning** - High performance coaxial connectors for broadband telecommunication and microwave systems. Branded GPO®, GPPO®, G3PO™, G4PO®, SGMS™ and GMS® connectors. Applications Include military, satellite, wireless and telecommunications. [www.corning.com](http://www.corning.com)

**CTT, Inc.** - Power Amplifiers, low-noise amplifiers, frequency converters, frequency multipliers, transmitters, transceivers and receivers with in the frequency spectrum of 10 MHz to 100 GHz. [www.cttinc.com](http://www.cttinc.com)

**Diamond Antenna** - RF/Microwave Rotary Joints for Satellite Communications, Air Traffic Control, Space Platforms, Weather Radar, and other Radar Applications. [www.diamondantenna.com](http://www.diamondantenna.com)

**High Speed Interconnects** - Extrudes and assembles high-performance RF microwave coaxial cable ranging from 16 to 52 AWG. HSI's low-loss, low-capacitance, exceptionally phase-stable, coaxial interconnect solutions include SMA, SMP, SSMP circular connectors. [www.highspeedint.com](http://www.highspeedint.com)

**Networks International Corporation** - Custom RF and Microwave Filters and Assemblies: lumped component, cavity, ceramic, and crystal filters, Switched Filter Banks, Diplexers, Multiplexers, Integrated Microwave Assemblies, Phase Shifters, and VCTCXOs & TCXOs. AS9100C and ISO9001 certified for Commercial, Military, and Space. [www.nickc.com](http://www.nickc.com)

**Synergy Microwave Corp.** - VCOs, synthesizers, crystal oscillators, SAW oscillators, DROs, demodulators, phase locked oscillators, mixers, power dividers, couplers, 90 & 180 degree hybrids, modulators, filters, doublers, phase shifters/detectors, attenuators, transformers, PIN diode switches for commercial, industrial and military markets. [www.synergymw.com](http://www.synergymw.com)

**UTE Microwave Inc.** - Circulators and isolators for applications at all the wireless and PCN frequencies. Devices cover the power spectrum from milliwatts to high power, suited for cellular, TV, radar, medical and other applications. [www.utemicrowave.com](http://www.utemicrowave.com)

October 2018

## **PCB Fabrication Services**

Quick-turn PCBs. Quality coupled with quick, reliable delivery at competitive prices. 95% of orders delivered in 10 days 33% delivered in 3 days. RFQ's answered in 90 minutes or less

<http://www.circuitswest.com/>

Flex Circuit Design, Design Analysis, Fabrication and Assembly from single layer to 16 layers, including rigid-flex designs, multi-layer, rigid flex and sculptured flex for exposed contact fingers.
