

ADVANCED COOLING TECHNOLOGIES
The Thermal Management Experts | www.1-act.com

ACT - Custom thermal management technologies and solutions. Heat pipes, heat spreaders, Phase Change Material, Vapor Chambers and ICE-Lok® thermally enhanced wedgelock products. Terrestrial, spacecraft, and high-temperature applications.
www.1-act.com

AtlantecRF - Satellite Simulators and Satcom Test Equipment, Single and Multi-path and drone and HAPS payloads. Manual, Battery Powered, Weatherproof, Portable and Ethernet Control Loop Test Translators (LTT), Noise and Signal Generators and Noise Injection Test Translators. As well as a range of Electromechanical Switches, 1P1T, 1P2T, 1P4T up to 1P12T, failsafe and latching options for SMA and N type devices and PCB mount
www.atlantecrf.com

Corning Gilbert - High performance push-on connectors for broadband telecommunication and microwave systems. Branded GPO®, GPPO®, G3PO™, G4PO®, SGMS™ and GMS® connectors. Applications Include military, satellite, wireless and telecommunications.
www.corning.com

CTT, Inc. – Connectorized Power Amplifiers, low-noise amplifiers, frequency converters, frequency multipliers, transmitters, transceivers and receivers in the frequency spectrum of 10 MHz to 100 GHz.
www.cttinc.com

CUSTOM MICROWAVE COMPONENTS, INC.

Custom Microwave Components, Inc. - PIN diode switches from Single Pole 2 throw to 7 Throw switches, PIN Diode Attenuators, Phase Shifters, 8-way power dividers, 8x8 switch matrix, Custom switches.
www.customwave.com

Diamond Antenna - RF/Microwave Rotary Joints for Satellite Communications, Air Traffic Control, Space Platforms, Weather Radar, and other Radar Applications. Refurbishing Services also available.
www.diamondantenna.com

Frequency Electronics, Inc.

Frequency Electronics - High precision time and frequency generation products for Space, Military and Commercial applications. Over 45 years of experience in providing highly reliable oscillators to the space industry.
www.fregelec.com

High Speed Interconnects - Extrudes and assembles high-performance RF microwave coaxial cable ranging from 16 to 52 AWG. HSI's low-loss, low-capacitance, exceptionally phase-stable, coaxial interconnect solutions include SMA, SMP, SSMP circular connectors.

Networks International Corporation - Custom RF and Microwave Filters and Assemblies: lumped component, cavity, ceramic, and crystal filters, Switched Filter Banks, Diplexers, Multiplexers, Integrated Microwave Assemblies, Phase Shifters, and VCTCXOs & TCXOs. AS9100C and ISO9001 certified for Commercial, Military, and Space.

www.nickc.com

Orbel - Board Level Shielding (EMI Shielding, RF shielding, PCB Shields), Finger-Stock EMI Gaskets, Fabric Over Foam EMI Gaskets, Metalized Fabric Gaskets, Custom Metal Stamping, Photo-Etched Precision Metal Parts, Precision Metal Stampings, and Electroplated Metal Foils

www.orbel.com

Synergy Microwave Corporation - VCOs, synthesizers, crystal oscillators, SAW oscillators, DROs, demodulators, phase locked oscillators, mixers, power dividers, couplers, 90° & 180° hybrids, modulators, filters, doublers, phase shifters/detectors, attenuators, transformers, for commercial, industrial and military markets.

www.synergymwave.com

UTE Microwave Inc. - Circulators and isolators for applications at all the wireless and PCN frequencies. Devices cover the power spectrum from milliwatts to high power, suited for cellular, TV, radar, medical and other applications.
